

tús geal

Programme for Schools

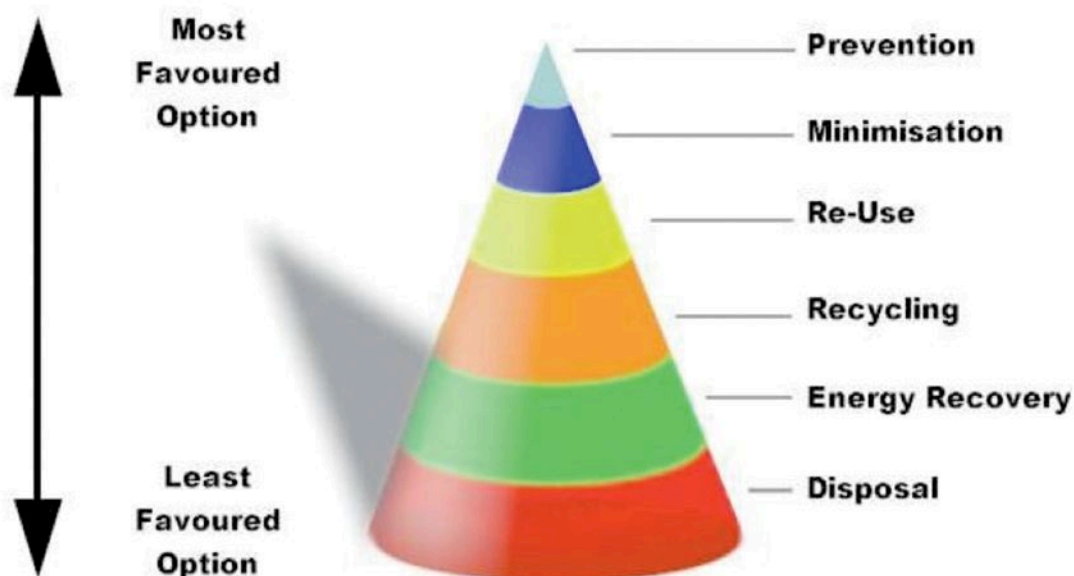

What Tús Geal does

- *We are a recycling company that mainly focuses on Textile recycling.*
- *We have a collection permits from cork, Kerry and limerick county councils.*
- *We are an Irish owned and registered company.*
- *We hold all applicable insurances.*
- *We would love to work with you to recycle more and generate cash for your project.*

Let's move from this

Waste Management Hierarchy

Waste Textiles

- *Each person generates approximately 28 kg of textile waste each year.*
- *All of this is recyclable and reusable*
- *It is critical that this material is clean and remains dry so that it can be processed.*

What we do

- *We work with schools to collect and recycle waste textiles.*
- *We operate differently to the "charity banks"*
- *Students collect the textiles and deliver to the school*
- *We supply bags and leaflets*
- *We collect the material, weigh it and give you a receipt for the material.*
- *When you wish we release the value of the collected material to you.*
- *You choose what to do with the funds.*

What happens the material?

The Textiles that we collect include clean clothes, sheets, underwear, blankets, duvets, net curtains and footwear and are recycled in a variety of ways. The majority are graded/sorted and exported to many Countries around the World for re-wear. Anything that is not suitable for re-wear is recycled using special processes to make items such as flocking for mattresses, underlay for carpets, soundproofing for cars and industrial cleaning wipes.
